

PACIFIC ATF DEXTRON-V TRANSMISSION OILS

Introduction : Pacific ATF DEXTRON-V automatic transmission oil is red coloured premium quality transmission oil for use in heavy duty gear boxes. This fluid imparts anti-oxidation, anti-wear, de-foaming, anti-corrosion and desired friction characteristics. Due to its high viscosity index and low pour point it assures quiet and smooth operation of transmission & hydraulic equipments under all climatic conditions.

Applications : Recommended for use in power shift transmissions & hydraulic systems fitted with Automotive, Commercial Vehicles, Tractors, Farm Equipments & Industrial Torque Converters and Automotive Power Steering.

Performance Benefits :

1. Provides excellent lubrication for gear box & transmission equipments.
2. Ensures long trouble free life of transmission system.
3. Minimises formation of sludge & varnish, thus maintains the system clean.
4. Protects parts against rust even during idle period.
5. Provides thermal & oxidation resistance.
6. Provides low temperature fluidity & foam control.
7. Provides corrosion and anti-wear properties.

Specifications : TES 228 Type C-4 of Detroit Diesel, Ford ESEN-M2C-134C Dextron-V

Characteristics :

1. Kinematic Viscosity, cSt @ 100°C	7
2. Viscosity Index, min.	140
3. Flash Point, (COC), °C, min	175
4. Pour Point, °C, max	-36
5. Corrosion, Copper Strip, at 100°C For 3 hrs, max	1
6. Colour, visual	Red

Pack Size : 210 Ltrs, 20 Ltrs 1 Ltr & 500 ml

*These Specifications are of a Particular Lot they can differ from lot to lot but will not effect the performance of the oil
