

Pacific Product Data Sheet

PACIFIC COOL TOOL-SS-70

(SEMI SYNTHETIC METAL WORKING FLUID)

Introduction : Pacific Cool Tool-SS-70 is a strong & clear dark green semi-synthetic cutting fluid. It maintains a constant PH Value for a long period of time. It assures uniform concentrated oil drops on the cutting tools, that ensures high quality finishing on the component being worked on. It has enhanced performance characteristics. It can be used on all cutting tool materials namely HSS coated / unquoted, Tungsten coated / unquoted PCD ceramic etc. It can be used for all ferrous and non ferrous alloys.

General Applications :

- Sawing
- Boring
- Drilling
- Turning
- Tapping
- Facing

Performance Benefits :

- Good Corrosion Protection
- Good Detergency
- High workpiece visibility
- Long Fluid Life
- High Thermal Stability

Pack Size : 210 Ltr & 20 Ltrs

PACIFIC COOL TOOL-FS-40

(FULLY SYNTHETIC METAL WORKING FLUID)

Pacific Cool Tool-FS-40 is a amber clear synthetic cutting fluid and becomes fluorescent green in colour upon dilution and is formulated with premium EPA (Extreme Pressure Additives) package and designed primarily for moderate to heavy machining of ferrous and non-ferrous metals including Aluminium. Cool Tool-FS-40 cutting oils is environment friendly as it doesn't contain chlorine, nitrite, heavy metals and phenol

General Application :

- Sawing
- Deep Hole Drilling
- Tapping
- Chip forming

Performance Benefits :

- Good Corrosion Protection
- High workpiece visibility
- Resistance to Extreme Pressure Cutting
- Long Fluid Life
- High Thermal Stability

Pack Size : 210 Ltr & 20 Ltrs
