

PACIFIC PRO-GEAR HEAVY DUTY TRANSMISSION OILS

80W90 & 85W140 API GL-5

Introduction : Pacific Pro Gear oils are automotive extreme pressure multi-gear oils blended from specially selected high viscosity index base stocks and contain additives which impart extreme pressure, anti-rust, anti-corrosion and anti-oxidation characteristics. This is multi-purpose type gear lubricant specifically formulated to meet the rigorous service demand of commercial fleet, mechanical transmissions, axles and gear boxes.

Applications : Pacific Pro-Gear oils are special multigrade heavy duty hypoid gear oils, primarily recommended for the lubrication of hypoid differential units operating under severe conditions, other types of mechanical transmissions and drive axles where extreme pressure gear oils are required. It is ideal for vehicles operating in areas where ambient temperatures vary widely.

Performance Benefits :

1. Good oxidation.
2. Good thermal and chemical stability for long service life.
3. Low pour point for low temperature operations.
4. Less fuel consumption.
5. Protects gear assemblies against rust & corrosion.
6. Have excellent extreme pressure property to give maximum protection against low speed-high torque wear and high speed –shock induced scoring.
7. Guard automotive gear assemblies against rust and corrosion.

Specifications : API GL-5/MT-US Military MIL-L-2105D

Characteristics :

SAE GRADE	80W-90	85W-140
Kinematic Viscosity cSt @ 100°C	13.5-15.0	28-32
Viscosity Index, Min.	90	90
Flash Point (COC), °C Min.	165	180
Pour Point, °C Max.	-27	-18

Pack Size : 210 Ltr, 50 Ltr, 20 Ltr, 5 Ltr & 1 Ltr.

*These Specifications are of a Particular Lot they can differ from lot to lot but will not effect the performance of the oil
